HUNTIA
Copyright © 1964, by The Hunt Botanical Library

HUNTIA is a yearbook devoted to studies of the literature on systematic botany and horticulture, botanical voyages and explorations, early agriculture, medical botany, and the related subjects of botanical biography, iconography, and bibliography.

While HUNTIA serves primarily as a record of investigations at The Hunt Botanical Library, its pages are open also to papers from scholars of other institutions.

Editor: George H. M. Lawrence
Director, The Hunt Botanical Library

Subscription price: $7.50 (US) a volume.
Communications regarding subscriptions, exchanges and contributions should be addressed to the Editor, Hunt Botanical Library, Carnegie Institute of Technology, Pittsburgh, Pennsylvania 15213.
The portrait collection and program

Theodore W. Bossert

In the preface to volume one of the Catalogue of botanical books in the collection of Rachel McMasters Miller Hunt, published in 1958, Mrs. Hunt stated, regarding the collection of books and manuscripts on any subject, "the more one collects the further back one goes into history and the deeper one delves into the subject."

This observation was well proved by her own experience in the botanical field, for she soon found, as she continued to study books and manuscripts about plants, that it became important to learn of the people who had written about those plants and who had studied and worked in this field to advance botanical knowledge.

Thus, over the years, she assembled a collection of portraits of botanists, including biographical accounts of the subjects of each. Because her interest in this respect was for many years directed more to the world's botanical leaders of the centuries prior to the present, the portraits of few living botanists are included in her collection. It includes some paintings and a few photographs, but the great majority comprises engravings, woodcuts, and lithographs.

In 1961 the entire botanical collection of Mrs. Hunt was transferred to the Rachel McMasters Miller Hunt Botanical Library, dedicated as a unit of Carnegie Institute of Technology. Shortly thereafter a project was activated to develop and expand its existing collection of portraits of botanists to include likenesses of living botanists and horticulturists.

There is good reason to expand the Hunt collection of portraits of botanists to include likenesses of living persons in these fields. Every person who has made his mark in this area deserves to have his likeness preserved for the future. The record we seek assures this preservation.

The collection, when properly developed, will serve many needs. It will—
(a) become a central repository for likenesses of all important botanists and horticulturists;
(b) provide likenesses, with brief biographical notes, for use by botanists, historians, biographers, and others; and
(c) be one of the few sources for photographs of persons of local or regional importance, of persons whose likenesses may become lost to posterity if not solicited and added during their lifetime.

Since the activation of this enlarged program the library has collected additional portraits of botanists of earlier years and has also collected a substantial number of photographs of living and recent botanists and horticulturists, so that the total number of persons represented in the collection as of 1 August 1961 was over 1,000. Those of many hundreds of other botanists have been added since then.

As is indicated above, this library has undertaken a project to expand its collection of portraits of botanists of all times. To this end there is presented on the following pages a listing of the names of botanists and horticulturists whose likenesses are represented in the collection. Included also are pertinent dates and identifying data.

This listing serves to indicate what botanists are represented. It enables the reader to determine if there are persons known to him whose names are not included, and to direct this library to an existing likeness which may be available for copying or direct acquisition.

The listing is arranged by name of subject in alphabetical order. Each entry includes the items listed below, and in the order shown.

1. Full name, if available. Otherwise, with initials.

   No titles are used, except for unmarried women, and for married women who use their maiden names professionally. In these cases the title "Miss" follows the maiden surname. Where married women continue to use professionally only their maiden names, their married name is also shown in parentheses, and is cross-referenced.

   Where married women use their husband's surname preceded by their maiden name, the husband's given name or initials, with the title "Mrs.," follows in parentheses, and is generally not cross-referenced.

   Where men are identified professionally by two names, one name follows the principal one in parentheses, and is cross-referenced if considered advisable.

2. Birth year, when available.

3. Death year, when applicable and available.

4. Country of primary activity, or where presently located.

5. Botanical or horticultural specialty.

6. Medium, or type of likeness, i.e., engraving, photograph, etc., followed by number in parentheses, indicating the number of different likenesses in that medium. Abbreviations are used as follows:

   "Copy"—Photo copy, followed by dash and abbreviation of original
medium. For example: a photo copy of an engraving is designated “Copy—
engr.”

“Dag”—Daguerreotype
“Engr”—Engraving
“Lith”—Lithograph
“Phot”—Photograph
“Pntg”—Painting
“Wdct”—Woodcut

Photographs of groups of botanists are included in the collection, and
continue to be sought. However, for portrait purposes, the name of no
individual is included in this listing when in a group picture of three
or more.

Readers knowing of likenesses of botanists and horticulturists, living or
dead, which they believe should be in this collection, are invited to con-
tribute same or to advise me of their location and availability.

One of the service functions of this library is to make this material avail-
able to persons having need of it. Copies of portraits may be ordered at
the uniform price of $2.00 each. Prints will be supplied in glossy or matte
surface as requested, and will usually be 8 × 10 inches in size, unless spec-
ified otherwise. Orders for copies of portraits of living persons must be
accompanied by written approval of that person.

Many persons have contributed in the past few years to the effort to
build up this collection, notably the following:

For purpose of record, this inventory of holdings is based on those re-
ceived prior to 1 August 1963. Several hundred others have been received
since then, and it is planned to account for these in an annual supplement
to be published in subsequent volumes of Huntia.
